

Black Bear Adult

Bleeding Art Industries – We Create Cool...Animals!

Adult Black Bear. This jointed stuffy was created to be handled on screen for a TV series shoot. This 6 foot, lifelike bear was the victim of a bait trap but has also worked for close up action sequence. Made from simulated nylon hairs punched into a 4 way stretch fabric, the fur moves nicely over the armature and gives great believability to the piece.

All the joints have a good range of motion so that he can be put into a number of positions.

It has realistic claws and hard pads. For ease of movement, it weighs under 100 lbs.
